-  /in/satish-gupta-6ba07abb/
-  /users/9902303/satish-gupta
-  satishgupta.dev/

## SKILLS

-  NodeJs
-  ReactJs
-  Javascript
-  NGINX
-  AWS
-  PostgreSQL

First, solve the problem. Then, write the code.

## EDUCATION

### MAHARSHI DAYANAND UNIVERSITY

Bachelors in Technology (CSE)  
2013-2017

## CERTIFICATIONS

-  Docker Mastery: with Kubernetes +Swarm from a Docker Captain
-  Microservices with Node JS and React

## RELEVANT EXPERIENCE

### Sr. Full Stack Developer

*Clik.ai | April 2021 - present*

- AI enabled OS/Rent Roll extraction, underwriting, and workflow automation software
- Used, Node, React, PostgreSQL, Nginx, Elastic search, Kibana, Log stash, AWS for cloud, Bitbucket for version controlling, JIRA for bug tracking and sprint planning, and Bitbucket pipeline for CI
- Implemented various login strategies (email, social, SSO/SAML) to increase user adaptability
- Implemented testing frameworks (Jest/Cypress) to ensure bug free deployment
- Implemented linters/prettier to find and fix problems in JavaScript code

### Full Stack

*Clik.ai | December 2018 - April 2021*

- It is an AI enabled OS/Rent Roll extraction, underwriting, and workflow automation software
- Worked closely with ML team to implement ML in application
- Redesigned APIs to make them paginated to filter across millions of records in milliseconds.
- Written modular, testable, highly maintainable code
- Containerized application in docker
- Regularly contributed and reviewed code of colleagues
- Trained junior developers

### Node.js Developer

*Fluper LTD. | May 2018 - December 2018*

- Worked on projects in categories e-commerce, job-portals, social apps, HRMS, restaurants, and event planning.
- Managed a team of 8 junior developers
- Worked on various Nodejs frameworks like NestJs, ExpressJs.
- Worked on various third party libraries like onfido, stripe, google maps, twilio, sendgrid, etc.
- Integrated socket.io for social networking apps.
- Worked on Angular 7 to create admin panels.
- Used MongoDB as database.
- Deployed projects on AWS/Google Console
- Used NGINX as reverse proxy for nodejs and angular applications
- Did domain mapping, installed SSL
- Did web scrapping

### Developer

*FlexiEle | March 2017 - May 2018*

- FlexiEle is an HRMS application. Its features include HRMS, Recruitment, Appraisal, Learning, Payroll, Survey, Help Desk, Intranet, Expense and analytics
- Worked on SQL, NodeJs, ExpressJs and ReactJs
